

You have observed a lot of smoke. Your ecosystem is on **FIRE!**

A hurricane just moved through and your ecosystem received a lot of **flooding**.

There is a new neighborhood being built in your ecosystem. There is a lot of new **construction**.

Kudzu has grown wild near your neighborhood. It is taking over a large field.

People in a nearby neighborhood have not been taking care of their yard. Their **ivy** is overgrown.

A nearby factory has been dumping their **pollution** outside.

Over the summer there wasn't a lot of rain so the area is facing a **drought**.
